

TCI	Description	Method	Endpoint	Expected
1	Creates a valid student	POST	/api/students	200
1.1	Retrieves all students	GET	/api/students	200
1.2	Creates valid student BVA gpa min	POST	/api/students	200
1.3	Creates valid student BVA gpa max	POST	/api/students	200
1.4	Creates invalid student BVA gpa below min	POST	/api/students	400
1.5	Creates invalid student BVA gpa above max	POST	/api/students	400
1.6	Creates valid student BVA name min	POST	/api/students	200
1.7	Creates valid student BVA name max	POST	/api/students	200
1.8	Creates invalid student BVA name below min	POST	/api/students	400
1.9	Creates invalid student BVA name above max	POST	/api/students	400
2	Creates invalid student with name missing	POST	/api/students	400
2.1	Creates valid student with gpa missing (defaults to null)	POST	/api/students	200
2.2	Creates invalid student with major missing	POST	/api/students	400
2.3	Retrieve valid student by valid id	GET	/api/students/1	200
2.4	Retrive invalid student with invalid id (defaults to null)	GET	/api/students/1000	200
2.5	Update valid student	PUT	/api/students	200
2.6	Update invalid student	PUT	/api/students	500
2.7	Update invalid student with no id (creates new entry)	PUT	/api/students	200
2.8	Delete student with valid id	DELETE	/api/students/1	200
2.9	Delete student with invalid id	DELETE	/api/students/1000	404
3	Create valid course	POST	/api/courses	200
3.1	Retrieve all courses	GET	/api/courses	200
3.2	Create valid course BVA instructor min	POST	/api/courses	200
3.3	Create invalid course BVA instructor below min	POST	/api/courses	500
3.4	Create valid course BVA maxSize min	POST	/api/courses	200
3.5	Create invalid course BVA maxSize below min	POST	/api/courses	500
3.6	Create valid course BVA room min	POST	/api/courses	200
3.7	Create valid course BVA room max	POST	/api/courses	200
3.8	Create invalid course BVA room below min	POST	/api/courses	500
3.9	Create invalid course BVA room above max	POST	/api/courses	500
4	Create invalid course name missing	POST	/api/courses	500

4.1	Create valid course instructor missing (default to null)	POST	/api/courses	500
4.2	Create invalid course room missing	POST	/api/courses	500
4.3	Create invalid course maxSize missing	POST	/api/courses	500
4.4	Update valid course	PUT	/api/courses/1	200
4.5	Update invalid course	PUT	/api/courses/1000	500
4.7	Update invalid course with no id	PUT	/api/courses	405
4.8	Add valid student to valid course	PUT	/api/courses/addStudent/3	200
4.9	Add invalid student to valid course	PUT	/api/courses/addStudent/1	400
5	Add valid student to invalid course	PUT	/api/courses/addStudent/1000	400
5.1	Add valid student to valid course	PUT	/api/courses/addStudent/3	400
5.2	Remove valid student from valid course	PUT	/api/courses/removeStudent/3	200
5.3	Remove invalid student from valid course	PUT	/api/courses/removeStudent/1	400
5.4	Remove valid student from invalid course	PUT	/api/courses/removeStudent/1000	400
5.5	Get enrollment from valid course	GET	/api/courses/getEnrollment/1	200
5.6	Get enrollment from invalid course	GET	/api/courses/getEnrollment/1000	400
